Clinics: Bristol, London, Zoom.

NHS Practice

Postal: The Department of Neuropsychology, The Rosa Burden Centre,
Southmead Hospital, Bristol, BS10 5NB.

Employment - Current

May 2010 – Current: Consultant Clinical Neuropsychologist and Clinical Director of Postgraduate Programs in Clinical Neuropsychology, North Bristol NHS Trust and the University of Bristol. Including the provision of Clinical Neuropsychology training to Practitioner Psychologists nationally.

November 2006 – Current: Consultant Clinical Neuropsychologist in Private Practice. I am the owner and managing director of Clinical Neuropsychology Ltd, a private company offering clinical neuropsychology services, including assessment, rehabilitation, medico-legal and occupational health services. I am also a Consultant with NPsych Clinical Neuroscience Ltd.

I have been accepting medico-legal instructions since 2007 and I accept approximately 25 new instructions a year in the ratio of approximately 50% claimant and 50% defendant, with a split of approximately 70% personal injury and 30% medical-negligence.

I have previously given oral evidence at court.

I have undertaken specific medico-legal training and I undertake on-going medico-legal CPD.

I maintain professional indemnity insurance to cover my private practice work.

Chartered Psychologist

EXPERT WITNESS
INSTITUTE
INDIVIDUAL MEMBER

My waiting time for a new medico-legal appointment is approximately 12 months and my report turn-around time is 6 weeks, assuming all relevant records are available.

Professional Registration and Recognition

I am a registered Practitioner Psychologist, Clinical Psychologist, with the Health & Care Professions Council. PYL26234.

I am a Chartered Psychologist and an Associate Fellow of the British Psychological Society.

I am on the British Psychological Society's Specialist Register of Clinical Neuropsychologists.

I am a Registered EuroPsy Psychologist with the European Federation of Psychologists' Association.

Affiliations and Offices

I am an Honorary Professor of Clinical Neuropsychology, at the University of Bristol.

Between 2010 and 2013 I was an elected member of the Executive Committee of the British Psychological Society's Division of Neuropsychology. I also sat on the Workforce Planning Committee as the Division of Neuropsychology representative.

I currently sit on the Committee for Training in Clinical Neuropsychology of the Division of Neuropsychology of the British Psychological Society.

I am an Examiner and Supervisor for the British Psychological Society's Specialist Register of Clinical Neuropsychologists.

I am the Director of Clinical Neuropsychology Limited.

NHS Employment - Past

April 2016 – August 2024: Head of Neuropsychology, North Bristol NHS Trust. I was the head of service for a large NHS neuropsychology department within a regional neurosciences hospital. The department offers an array of neuropsychological services including: input into acute and post acute neurology, neurosurgery and neuropsychiatry services, functional neurosurgery services, acute and post acute stroke and neuro-oncology services as well as acute and community brain injury rehabilitation services. I offered general clinics in neuropsychology and rehabilitation.

Dec 2013 – April 2016: Clinical Lead and Consultant Clinical Neuropsychologist North Bristol NHS Trust. I was the Clinical Lead for adult neuropsychology services at North Bristol NHS Trust. I offered clinical leadership across an array of neuropsychology services including input into acute and post acute neurology, neurosurgery and neuropsychiatry services, functional neurosurgery services, acute and post acute stroke and neuro-oncology services as well as community brain injury rehabilitation services. I offered general clinics in neuropsychology and rehabilitation, as well as a specialist clinic in mild traumatic brain injury.

Sept 2012 – Dec 2013: Consultant Clinical Neuropsychologist seconded to service development. I was responsible for the development of a number of new service initiatives within the neuropsychology service at North Bristol NHS Trust and the refinement of existing pathways of care for patients following mild traumatic brain injury.

Feb 2007 – Sept 2012: Consultant Clinical Neuropsychologist covering adult assessment and brain injury rehabilitation services with clinical lead and managerial responsibility for the delivery of regional community brain injury rehabilitation via the work undertaken by the multi-disciplinary team at the Head Injury Therapy Unit, Frenchay hospital.

Aug 2006 – Aug 2007: Clinical Neuropsychologist to the Adult Epilepsy Surgery team, Frenchay Hospital, providing pre and postoperative neuropsychological assessment/management, and Wada language and memory testing, for patients undergoing neurosurgery for chronic intractable seizures.

Jan 2005 – Feb 2007: Clinical Neuropsychologist to the general neurosurgery service, Frenchay Hospital, providing neuropsychological assessment/management and intervention for patients undergoing neurosurgery.

Jan 2003 – Dec 2006: Clinical Neuropsychologist to the Functional Neurosurgery Team, Frenchay Hospital, providing neuropsychological assessment/management and intervention for neurosurgical patients with a particular emphasis on movement disorders, especially patients undergoing surgery for Parkinson's disease.

Jan 2002 – Feb 2007: Clinical Neuropsychologist to the Neuropsychiatry Service, Frenchay Hospital, providing neuropsychological assessment/management and intervention for patients with complex presentations from neurological and neuropsychiatric diagnoses including but not limited to: epilepsy, traumatic brain injury, tumour, stroke, neurodevelopmental disorder, and somatisation disorder.

July 2004 - December 2004: Clinical Neuropsychologist to the interventional cerebro-vascular neuroradiology and neurosurgery team, Frenchay Hospital, providing neuropsychological assessment/management for patients undergoing neurovascular intervention.

Jan 2002 – Dec 2002: Clinical Neuropsychologist to the Head Injury Therapy Unit, Frenchay Hospital, providing assessment and intervention services to community dwelling adult patients who had suffered traumatic brain injury.

Oct 1998 – Dec 1999: Assistant Psychologist within the epilepsy surgery team and neurology service, Frenchay Hospital. Supervised by Dr Nigel Walton.

Qualifications

Oct 2003 – June 2007: Doctor of Philosophy (PhD) degree, University of Bristol. The neuropsychology of GDNF infusion and DBS surgery for Parkinson's disease. Thesis submitted for examination October 2006, examined Feb 2007, and passed June 2007. Thesis was focused on neuropsychological assessment, executive function/dysfunction and measuring change in individual patients.

Feb 2000 – Dec 2001: Master of Psychology (M.Psych) degree, University of Melbourne. Two year full-time taught professional training degree in Clinical Neuropsychology. Included University and Hospital based training. Placements were undertaken with adult and paediatric patient populations, and in assessment and rehabilitation settings, both in hospital and in the community. Thesis focused on fMRI measurement of memory.

Oct 1995-July 1998: Bachelor of Science (BSc with Honours) degree, Psychology, 1st Class, University of Bristol. Degree confers Graduate Basis for Chartership with the British Psychological Society. Thesis focused on lateralised cognitive function in patients with unilateral epilepsy.

Continued Professional Development

I regularly undertake CPD relevant to my work as a clinical neuropsychologist and as a medico-legal expert witness.

Grants / Awards

Distinguished Contribution Award, Division of Neuropsychology of the British Psychological Society, 2021.

GW4 Accelerator Award, Rugby Working Group on Brain Injury.

Medtronic Inc: A Randomised double-blind crossover pilot study to evaluate the functional outcome following deep brain stimulation of the subthalamic region versus the Centromedian/Parafascicular nucleus of the thalamus in Parkinson's disease. SS Gill. P Plaha. M Bunnage. 2004-2005. £110,000

AMGEN funded PhD studies, £5,000, years 2004/2005.

Leverhulme Study Abroad Scholar, approximately £50,000, years 2000 and 2001.

Best Poster: European Epilepsy Congress, year 2000.

Teaching / Training

Jan 2003 – Current: School of Psychological Science, University of Bristol. Lecturing responsibility for postgraduate and postdoctoral students.

I regularly lecture as part of my Clinical Director role and am invited to lecture on local Clinical Psychology training courses and as part of professional CPD for Psychology colleagues.

Previous lecture topics have included:

- Evidence based practice in Clinical Neuropsychology.
- Neuropsychological treatment following mild traumatic brain injury.
- Neuroanatomy and neuropathology for Clinical Neuropsychologists.

- Screening approaches in Clinical Neuropsychology.
- Report Writing for Clinical Neuropsychologists.
- Executive function – evidential perspectives.
- Symptom / Performance Validity Testing and malingering.
- Premorbid ability and function.

Jan 2003 – Current: Postgraduate research project supervisor in Clinical Neuropsychology.

Previous projects have included:

- An audit of performance validity test failure amongst routine clinical cases.
- Measurement of perception of emotion in faces amongst people who have sustained brain damage using the Bristol Emotion Recognition Test.
- Diffusion tensor imaging following traumatic brain injury.
- An examination of community integration using the Community Integration Questionnaire after rehabilitation following traumatic brain injury.
- An examination of emotional status using the Depression Anxiety and Stress Scale after rehabilitation following traumatic brain injury.
- An analysis of material specific memory performance in people with unilateral temporal lobe epilepsy undergoing the Wada test.
